

# Software for SMART Business

## ProfitsBridge from Profitsflow.com extends existing systems.

- Add new features to existing ERP, Accounts, or CRM software
- Introduce user-friendly modules designed for non-computer literate operators
- Fully configurable and customisable to exact needs
- Integrate data with your existing systems
- Get more out of existing investment in technology
- Compile reports to replace manual documents and spreadsheets
- Your systems, the way you want them

## Shop Floor Data Collection (SFDC)

Shop floor data collection allows you to collect relevant production data as your product travels through the production facility. Information is collated and saved in real time to the ProfitsBridge database with is based on the robust Microsoft SQL Server platform. Examples of data that can be collected:

- Quality checks – pass/fail/other information
- Traceability via barcoding
- Non-production time analysis
- Machine/operator run and setup times for analysis against standard
- Automatic stock transactions

The screenshot displays the 'Start Job' software interface. It features a window with a title bar and standard window controls. The main area is divided into several sections:

- Details:** A box containing production statistics: Work Order UOM: 20 Litres, Quantity Required: 108, Quantity Made: 0, and Quantity Left: 108. Below this, it shows Part Number: 130035 and Part Description: Manufactured product for assembly.
- Order Information:** A box showing Order No. W13012115, Start Time: 12:51:49, and Emp ID: SUPERVISOR.
- Control Buttons:** Three large buttons labeled 'Start', 'Stop', and 'Non-Production Time' are arranged vertically in the center. An 'EXIT' button is located in the top right corner.
- Visual Elements:** Two vertical green bars are positioned on the left and right sides of the main area.

## Goods Receipts, Stock Processing

Profitsbridge integrates with your stock system allowing you to perform stock movements (receipts, despatch, stock relocation) with easy to use, visual screens that are tailored to your specific needs. Barcoding reduces the scope for errors even further.

PartNumber	Description	Ordered	Received
119512	POWERTRAC 15W/40 IBC	1	0
888201	IBC DELIVERED	1	0

## A platform to suit you

The ProfitsBridge solution can be run on a variety of platforms to suit every environment, with interfaces that include:

- Touchscreens
- Tablets
- Smart phones
- Laptop/PC
- Barcode Scanners
